DETAILED REPORT

REGISTRATION PROCESS

INAUGURAL SESSION

Venue –New Seminar Hall

Time – 10.30-12.00 pm

Rapporteur – Dr Swati Sharma

This conference was co-organized by Grand Academic Portal India and the Bhopal School of Social Sciences, on 2 March, 2019 at the BSSS Bhopal campus. The aim of this conference was to mobilize Knowledge societies to promote lifelong learning for all as a vector of equality and social justice, social cohesion and sustainable prosperity. The conference endeavoured to build the frame work on the aspect that the knowledge that a society generates and disseminates may be used to improve the human condition.

Grand Academic Portal is an initiative started by Dr Gurudutta P. Japee and Dr Preeti Oza to provide a supplementary and complementary element to the existing formal higher education system in India. Dr Preeti Oza is a faculty at St Andrews College, University of Mumbai. She had been instrumental in conceiving and realizing this dream of organizing a joint global conference. The purpose of GAP is to providing a transformative impact on the current Higher Education system in India and abroad through continual innovation in academics. BSSS functions, with the broad aim of diffusion of the right ideas of work and human relationships with a view to assist the national efforts of promoting an egalitarian society.

The day commenced with the lighting of the lamp for invoking the blessings of the almighty followed by the College anthem.

Dr Fr John P J Welcomed the Guest and the conference was inaugurated by Dr RJ Rao, Vice Chancellor, Barkatullah University.

He encouraged the younger generations to contribute to the nation through their efforts and knowledge. Over 200 delegates from different parts of the country attended the conference.

Dr Preeti Oza during this occasion gave a brief description on the conference and its sub themes.

The keynote speakers were John Robert Clammer and Dr. Romar Correa, who set the stage for intellectually stimulating discussions related to qualitative and quantitative aspects of human resource development, management and utilization.

The first keynote address was given by Dr. John Clammer, Professor Jindal School of Liberal Arts and Humanities. He is a visiting Professor of Comparative Sociology at the United Nations University, Tokyo and Asian Studies at Sophia University. A graduate of Oxford University, he also completed his D.Phil. degree at Oxford in Social Anthropology.

Dr John Clammer spoke about the nonlinear system of knowledge and digital migration. He discussed about his confidence in the beliefs, pure uncertainty and pessimism, open systems and treatise on probability

The second keynote address was by Dr Romar Correa, Professor Economics University of Mumbai. He elaborated on Kenneth Boulding's theory that connection is cognition and environment.

He discussed about neuroplasticity and the mapping between brain centers and behaviour not being deterministic.

The Grand Academic Portal (GAP) signed an MOU with BSSS in terms of institutional partnership. Dr Gurudata P Japee and Dr Fr John PJ signed the document amidst a huge round of applause.

The session also witnessed the release of three books and BSSS Journal of Management.

The Special issue of GAP-INTERDISCIPLINARITIES, e Journal was also digitally released for the public view.

Mr Rutwik Gandhe ended this inaugural session by proposing the vote of thanks.

PLENARY SESSION

Moderator- Mr Rutwik Gandhe

Venue –New Seminar Hall

Time - 12.00 pm- 1.00 pm

Rapporteur – Dr Shibani Basu Dubey

The plenary session had Dr. Amarjeet Singh Khalsa, Group Director IPER, Dr. Anuradha Pagedar, Associate Professor, Gujarat Law Society, Dr. G Kumar, ECE-LNCT Group and Dr. Deeptima Shukla as the experts to discuss the relevance of the theme of the conference and also to discuss the role of higher education in creating a skill-based workforce to pave way towards a better society.

Dr. Khalsa, a proud Alumnus of BSSS, portrayed a very optimistic picture of human resource in India which is going to make our country one of the strongest at the world economic forum. The clue is to tap that workforce and build on it to strengthen our society.

Dr. Deeptima Shukla spoke about employability quotient in education system. She stressed that India today needs a strong strategy-based education system to develop the skill factor which would ensure employment to the youth. Mere degrees as proofs for higher education are not going to suffice the need of the day. Instead, a design has to be created to substantiate higher education from the perspectives of developing skill-based knowledge.

Dr. Anuradha enlightened the audience about a healthy mind which is the very basic requirement to deal with challenges. She motivated the youth not to allow their minds to be polluted with negativity and unreasonable thoughts. A healthy mind will automatically serve the nation in a creative and constructive way. Thoughts govern action and noble thoughts lead to constructive action. The present generation needs to nurture creative ideas and implement those for the betterment of mankind.

Dr. Amarjeet Khalsa said that the research should be utility based. If a research is able to facilitate further learning and knowledge in classroom teaching, it is definitely useful. Once the research is applicable in day-to-day learning, it automatically becomes a fruitful endeavour without any further sanction to its authenticity.

Dr. G Kumar added that research does not end with a Ph. D degree; in fact, it starts with that degree i.e., one should start implementing the research findings in a pragmatic way.

The expert talk was followed by a questionnaire session. The participant- audience clarified their doubts with the expert speakers. It was a fruitful session where discussions on various issues relevant to making India a country with a strong and sound workforce contributing to human resource, took place.

LUNCH BREAK- 1-2 pm

Venue- Open Theatre

TECHNICAL SESSIONS

Venue- Management Block

Time - 2-3.30 pm

SESSION I

Teacher-in-Charge- Mrs Sini Shibu

Chairperson – Dr. Parul Bhati, Dy Director, GTU

Venue –Room No 002

Rapporteur – Dr Archna Lucas

The following papers were presented in this session:

1) **Presenter - Kirti Jain**

Topic: Impact of Freedom of Expression on Social Media: Prospects and Challenges."

2) **Presenter - Subhankar Roy:**

Topic: "Haat- weekly market in the context of Global; phenomena: A case study in North Bengal."

3) **Presenter - Jyoti Diwakar:**

Topic: "Silent exclusion of Dalit Women in knowledge production, freedom of expression"

4) **Presenter - Prabhudayal Yadav:**

Topic: "A study of skill development and technological education in the field of sustainable development"

5) Presenter - Dr. Paresh Kumar:

Topic: "Freedom of Expression"

6) Presenter - Shazia Rashid:

Topic: "Cultural life of woman in ancient Kashmir"

7) Presenter - Joydip Dutta

Topic: fear in the minds of the administrators who are taking care of the camp.

8) Presenter - Srishti Sengar:

Topic: Development of the Rural Areas on the basis of Education System in the past ten years"

9) Presenter - Shavarni Shukla:

Topic: "The role of Sustainable Development Agriculture."

These presentations led to animated discussions between the participants, questions related to various issues were raised and satisfactory answers were given.

SESSION II

Teacher-in-Charge-Dr Smitha Pillai

Chairperson - Dr Rupali Shevkar, REPG, Department UTD

Venue - Room No 003, Management Block

Time - 2.00-3.30 pm

Rapporteur - Ms Anika Chaudhary

Following papers were presented in the Technical Session- II:

1) Presenter - Ratan Mishra

Topic: Impact of Student Politics on Knowledge Society with reference to Delhi University.

According to him, student politics is type of semi- formal politics which is mainly practiced in educational institutions and Delhi University is the one which is mostly affected by it. He emphasized on the positive and negative impact of student politics in Delhi University and on National Politics.

2) Presenter - Ayushi Rajvaidya:

Topic: Education based knowledge society in India.

She emphasized on the need to study the conceptual overview of knowledge-based society in India and was of the opinion that social incorporation is a basic formula for society to qualify as knowledge-based society.

3) Presenter - Rishabh Nathan:

Topic: MOOCS- Adjuvant in the Digitalization of Knowledge Society in India: Their Cognizance & Perception amongst Higher education students.

His study was on increasing awareness about Massive open online course in higher education institutions as there is lack of awareness among students about MOOCS and suggested that more institutions should produce MOOCS.

4) Presenter - Ankita Sitaria:

Topic: Situation of Government Schools Education in India

She opined education plays a vital role in development of the country but in many government schools the available academic resources are limited like infrastructure is poor, lack of quality teachers etc. She suggested there should be a balanced ratio between number of teachers appointed and students studying in school.

5) Presenter - Ishpreet Kaur Saini:

Topic: "Role of Education in Know-How Mankind in India.

According to her, education is main ingredient of knowledge society and the main objective is to understand the role of education in knowledge-based society. She opined that “education is life and not preparing for life”.

6) Presenter - Shivansh Dubey:

Topic: A study on Role of Education in our society with special emphasis to making of Global India”.

He focused on enhancing the quality of education and to emphasize on english language education. He was of the opinion that teacher should inculcate value based education in all students so that they can stand out in the world.

7) Presenter - Kushal Sharma & Jatin Ramani:

Topic: “Role of education in knowledge-based society”.

They opined that meaning of education is building up job oriented skills with knowledge of books and emphasized on how India can become a knowledge based society. They also talked about challenges being faced in education system.

8) Presenter - Ashay Jaiswal:

Topic: Disinterest of Indian Youth towards a career in Indian Army”. He opined the reasons why youth are not willing to join Indian army may be due to lack of knowledge about the exams or about the working conditions in the Indian army.

9) Presenter - Riya Gupta:

Topic: Is it necessary to pursue MBA after completion of graduation to get better career opportunities”?

She talked about the career opportunities that are available after the graduation if one is having a degree of MBA.

10) Dr Rupali Shevalkar, RPEG, Department UTD, Chairperson: She opined that through education one can create a better society. The use of Information Technology can help to develop knowledge based society. According to her, MOOCS is a good concept that can help in developing a knowledge-based society.

Session III

Teacher-in-Charge-Dr Swapna Pillai

Chairperson -Dr Anjali Jain, Prof, IEHE, Bhopal

Venue - Room No 004, Management Block

Time - 2.00-3.30 pm

Rapporteur - Ms Ekta Khullar

Following papers were presented in the Technical Session- III

1) Presenter - Dr. Arundhati P. Dasani

Topic: Knowledge Society and Social Sciences- Law

The speaker established a close relationship between society and Law. Dr. Arunadhathi P. Dasani submitted that Social science is a study of society and the social norms that govern the society. The social norms of a society form the basis of justice system that governs our society. And therefore, a knowledge society that wishes to function in peace and make positive progress can use Law as a tool to bring about change in society.

2) Presenter - Shabeena Khan Durrani

Topic: An Empirical Study on Knowledge Management in Educational Organizations via Innovative Teaching Techniques for achieving Total Quality Management.

The speaker undertook a research study on Knowledge Management in educational institutes. Her research defined Knowledge Society as a collection of linking activities that make a student more capable and employable and therefore, it was established that the content taught, and the quality of teaching creates an impact on the personality and productivity of the students. She submitted that there is a strong link between Total Quality Management of Knowledge at institutional level and innovative teaching methodologies.

3) Presenter - Siddharth Jain

Topic: Knowledge Society- The Role of Technology for Sustainable Development

The speaker established that online radios are way of effective communication beyond barriers.

The speaker conducted a research study by taking the BSSS Rhythm (international online radio) as a knowledge society to analyse its impact on the listeners by functioning as an online knowledge society. The speaker submitted that BSSS Rhythm has beneficial impact on listeners.

4) Presenter - Baljeet Kaur Soodan

Topic: A Plea for Critical Thinking in today's Youth for a Knowledge Society: Lessons from 'Self Reliance' by Ralph Waldo Emerson and 'Of Studies' by Francis Bacon

The speaker established that we live in a society that is increasingly using knowledge as information without analysing or interacting with the content that is available to us. According to the speaker's study there is a deep relation between critical thinking and creation of knowledge society. The speaker also suggests that for the development of a knowledge society the following qualities of Individuality, Non-conformity, Independent mindset and Inconsistency must be developed.

5) Presenter - Nony Nema

Topic: Social Theories of a Knowledge Society

The speaker explained the UNESCO's report on the principles of an equitable knowledge society. According to the report:

(i) Universal access to information and knowledge, is the primary requirement for the formation of a Knowledge Society it involves learning in formal and informal settings.

(ii) Equal access to education, since schools and colleges are the centres involved in production of knowledge all members of society must be provided equal access to these centres.

(iii) Cultural Diversity comprises of the differences in cultures of the people pertaining to varied geographical areas or cultures.

(iv) Freedom of Expression, the report states that development of knowledge can only take place with freedom of expression.

6) Presenter - Chirag Vijayvargiya

Topic: Existence of Imagination and its Dead End

The speaker defined imagination as the ability to create a virtual world by a combination of experience which one may have seen, heard or experienced before. The speaker used primary and secondary data analysis to establish that individuals can imagine things only when there are some reference points available and that it is impossible to create imagination without any prior experience.

7) Presenters - Jyoti Manglani and Anamika Jaiswal

Topic: Knowledge Management Practices on Higher Learning with Reference to the Bhopal School of Social Sciences

The speakers defined knowledge and classified as explicit and implicit. The speakers stated the process of knowledge of management involves gathering, cataloguing and storing of knowledge for future use.

The speakers conducted a study to investigate whether the student and faculty at BSSS were aware of the various knowledge management systems available.

The speakers concluded that knowledge sharing is an effective tool and a majority of participants were satisfied with the quality of knowledge sharing and the knowledge management systems available in College.

Session IV

Teacher-in-Charge- Dr Vandana Jain

Chairperson – Dr. Jayanti Goyal, (GAP) Kanoria Girls PG College, Jaipur

Venue – Room No 005, Management Block

Time – 2.00-3.30 pm

Rapporteur – Dr. Vibha Rathod

The following papers were presented in this session:

1) Presenter - Namrata Ganguly

Title of the paper- Linking Knowledge Management effectiveness with Human Resource Management: A Conceptual Frame work

According to the presenter, human resources cannot survive without the knowledge and knowledge management. Knowledge can be managed through two factors- first, affiliation of duties & responsibility, and through performance appraisal part.

2) Presenter- Dr. Malay Ghosh

Title of the paper- Diffusion of Emerging Retail format & New Products in Indian Railway (an untapped Market opportunity for potential Companies, Consumers of Indian Railway)

The paper investigates potentialities of Indian Railways with retailers. For this paper secondary data had been collected to analyze the trends in modern retail formats meticulously. Dr Malay laid stress on the increased power of retailers, which led to the introduction of new tactics by manufacturers such as everyday low pricing, partnerships with retailers and increased use of direct marketing methods.

3) Presenter- Dr. Mahima M. Dubey

Title of the paper- Employability: Students perspective.

This paper attempted to find out and explore the major direct and indirect factors responsible for employment of fresh technical and professional graduates. Data was collected through a structured questionnaire online. Analysis and interpretation of data was conducted and the result raised critical issues related to employment and education scenario. The study revealed that no sincere efforts to improve the placement of students were taken by the management and technology institutes. This might have an adverse impact on the placement of students and employability of the institutes. This has been found as a serious concern for the technical and professional institutes running in Bhopal.

3) Presenter- Amit Kumar Tiwari

Title of the paper- The Impact of Organizational Effectiveness on Work Behavior of Employee

The purpose of this paper was to identify the factors that affect employee motivation and examining the relationship between organizational effectiveness and employee motivation. A model was designed based on this literature, linking factors of employee motivation with employee motivation and organizational effectiveness. The presentation focused on the practice and observance of the two central factors, Organization culture & climate & Organizational Climate Index (OCI) recognition for enhancing employee motivation which leads to organizational effectiveness. Statistical chart was presented through power point presentation.

5) Presenter-Daniel Danny

Title of the paper- Cleaning is a National habit of Japan's role on Total Waste Management

This paper contributes in identifying and understanding the values impacting Japanese children's behaviour and provides an insight into Japanese culture & values.

6) Presenters- Ish Gupta, Richa Bhatiya

Title of the paper-An Empirical Analysis of Long Run Relationship Between Spot and Futures Prices in Forex Market

The recent global meltdown has witnessed large fluctuations in the prices of most of the commodities traded across different commodity markets in the world. It is quite significant to examine the price discovery process during the periods of high

volatility and how the price discovery is affected by volatility in spot and futures markets. Since the study covers the volatility impact of futures prices and spot prices on their returns, it has very high significance from the policy perspective. Besides, it supports all the different parties dealing with investment decisions pertaining to commodity markets. The price discovery analysis is of greater significance in the context of faster growth of Indian commodity market and increasing global integration among financial markets.

7) Presenter- Harshika Ramchandani

Title of the paper: Evolution of Brain Drain In India

The concepts of brain drain, gain and circulation in the Indian context presents a fruitful sociological and policy relevant experience to understand the phenomena as it unfolded over many decades. As this paper demonstrates, 1960s to 1980s emerged as the phase of brain drain. The country witnessed considerable economic growth and development of S&T infrastructure coupled with the emergence of science community and intellectual climate in the 1990s. A historical perspective is adopted which presents ample data and empirical evidence to map the evolution and operation of three phases. Towards mapping the last phase of brain circulation, it is shown that the country embarked on the development of ICT software sector and become globally relevant and competitive. In an unexpected way the growth and dynamics of this high technology service oriented sector has unravelled the process of brain drain transforming it into brain circulation

8) Presenter- Kumar Rohit

Title of the paper: Study of Key Organizational Capabilities to introduce New Automotive Variants: An Application-based Approach in New Product Development

New Product Development (NPD) is the total process that takes a service or a product from conception to market. New or rebranded products and services are meant to fill a consumer demand or an opportunity in the marketplace. The steps in product development include drafting the concept, creating the design, developing the product or service, and defining the marketing. To prove the relation with new automotive model variants information, 12 Hypothesis are included in this paper.

VALEDICTORY SESSION

MC - Dr. Perminder Kaur

Venue - Main Conference

Time - 4.30 pm - 5.00 pm

Rapporteur - Ms. Richi Simon

The valedictory session started with a welcome note from Dr. Perminder Kaur, HoD Economics. She emphasized that the transformation of knowledge society to information society is the need of the hour and such academic programmes contribute to bringing about a change in the policy at the macro level. The introduction was followed by an address from Dr. Fr. John PJ, Principal, BSSS. In his talk, he thanked GAP for having BSSS as partner in organizing the conference. He ensured that along with social sector, BSSS will also progress in the field of knowledge sharing. Thereafter, two short videos were presented - the first one detailed the conference while the second one depicted the enthusiasm of the participants and presenters. Then, one of the presenters shared his opinion about the conference. Later, valedictory address was given by Dr. Guru Datta Japee.

Mr. Japee expressed that the very purpose of academic programmes like conferences is to create academic discontent and discomfort among scholars. He described propositional knowledge and ability knowledge; and emphasized that India needs to shift from being a research consumer to research producer. In his talk, he explained that social science researchers contribute to indirect knowledge while science researchers contribute to direct knowledge. Also, negotiability and compassion are vital to create and sustain the culture of knowledge society. He ended his note by

explaining the difference between the concepts of discipline of truth and truth of discipline and stressed that without a discourse in higher education real higher education is impossible.

Subsequently, mementos were presented to Dr. Guru Datta Japee and Dr. Preeti Oza.

Thereafter, Dr. Perminer Kaur proposed a vote of thanks. The session concluded with a reminder of the feedback form link sent to the participants which was followed by the national anthem.

Global Conference at BSSS

Chronicle Reporter, Bhopal

The Bhopal School of Social Sciences in Collaboration with Grand Academic Portal organised a Global Conference on “Making of Global India: Knowledge Society, Human Capital and a Reflexive Conscience” on 2 March 2019. The conference endeavours to build the frame work on the aspect that the knowledge that a society generates and disseminates may be used to improve the human condition. A knowledge society differs from an information society in that the former serves to transform information into resources that allow society to take effective action while the latter

only creates and disseminates the raw data. The capacity to gather and analyze information has existed throughout human history. However, the idea of the present-day knowledge society is based on the vast increase in data creation and information dissemination that results from the innovation of information technologies.

Knowledge Society is a term to describe societies which are economically and culturally characterized by a high degree of dependency on their potential to create scientific and technological knowledge

The Conference was inaugurated by Dr RJ Rao, Vice Chancellor, Barkatul-

lah University, Bhopal. The Key note Speakers, dr. John Robert Clammer and Dr. Romar Correa, set the ball rolling for intense discussions related to qualitative and quantitative aspects of human resource development, management and utilization. The session also witnessed the release of various books and journals.

The Plenary Session had Dr. Amarjeet Singh Khalsa, Dr. Anuradha Pagedar, Dr. G Kumar, Dr. Deeptima Shukla on the dais to discuss the role of Higher Education in creating a skill based workforce to pave way towards a better society.

The Post Lunch had the three technical sessions wherein the scholars and academicians presented their research papers to add their perspectives regarding the theme of the conference. The Chief Guest for the Valedictory Session, Dr. Guru Dutta Jappee, congratulated the team for a successful conference which is definitely going to have far-reaching consequences.

BSSS to organise conference on Making Global India on March 2

■ Staff Reporter

BHOPAL School of Social Sciences (BSSS) in collaboration with grand academic portal is organising a Global Conference on 'Making of Global India: Knowledge Society, Human Capital and a Reflexive Conscience' on March 2.

The conference endeavours to build the frame work on the aspect that the knowledge that a society generates and disseminates may be used to improve the human condition.

A knowledge society differs from an information society in that the former serves to transform information into resources that allow society to take effective action while the latter only creates and disseminates the raw data.

The capacity to gather and analyse information has existed

throughout human history. However, the idea of the present-day knowledge society is based on the vast increase in data creation and information dissemination that results from the innovation of information technologies. Knowledge Society is a term to describe societies which are economically and culturally characterised by a high degree of dependency on their potential to create scientific and technological knowledge.

Based upon the data-processing technologies in the information age, a typical element is using knowledge strategically as a factor of economic competition among nations as well as among companies and services within nations.

As a key resource, knowledge represents a factor of economic and social development. Interest in knowledge management in

education and professional training has increased lately.

The knowledge society, including the informational society, is one of complexity, interactivity, reflexivity, and interpretation. The conference aims to discuss as well as to churn out some important data, facts, analysis, and equations which will have the potential to make some important policy changes at macro levels. The academicians and researchers are also invited to be a part of the brain storming sessions of the conference so as to contribute in the creation of a better society.

Dr Lila Simon, conference convenor, informed that this conference is going to benefit all strata of the society because the designed sessions endeavour to churn out innovative methods as remedial measures to fill the existing lacunas.
